SUMMARY

A Front-End Developer with hands-on experience building production-grade web applications across enterprise-scale environments. Strong proficiency in React.js, Next.js, TypeScript, and modern front-end architectures. Experienced in collaborating within microservices ecosystems using NestJS, PostgreSQL, MongoDB, and gRPC. Adept at optimizing UI performance, improving cross-system integrations, and delivering clean, maintainable code. Passionate about scalable application design, cloud-native development, and continuous technical growth.

WORK EXPERIENCE

Front-End Developer | Teleinfo Media Public Company Limited Jun 2025 - Present
(6 months)

- Developed and optimized front-end interfaces for a large-scale enterprise e-commerce ecosystem covering main-web, supplier-web, and admin portals using React.js and Next.js.
- Worked within a microservices-based architecture with nearly 20 backend services, integrating via REST and gRPC to ensure consistent and reliable cross-service communication.
- Leveraged Docker, Kubernetes, Argo CD, and AWS to support CI/CD workflows and maintain application performance and availability at scale.

Front-End Developer (Graduation Project) | TTT Brother Co., Ltd. Nov 2024 – Mar 2025
(5 months)

- Built an internal complaint management system using React.js, Express.js, and PostgreSQL, taking full ownership of the front-end architecture and UI/UX design.
- Delivered reusable components and optimized workflows to provide a seamless user experience across multiple departments.

Front-End Developer (Internship) | Exvention Co., Ltd. Jun 2024 – Sep 2024
(4 months)

- Developed the front-end for a Health Information Exchange (HIE) system using Next.js, integrated with a NestJS backend and PostgreSQL database.
- Optimized front-end performance and improved data handling workflows for better user experience in clinical environments.

Web Developer (Freelance) | E-Tax Project Apr 2024 – Jun 2024
(2 months)

- Developed responsive front-end web application using NextJS
- Delivered project 100% on-time meeting all client requirements.

Junior Developer (Collaborative Project) | Exvention Co., Ltd. Jul 2023 – Mar 2024
(9 months)

- Developed a front-end web application using Angular integrated with a Spring Boot back-end service.
- Worked with MySQL for data modeling, integration, and validation across application features.

EDUCATION

Bachelor of Science in Software Engineering Burapha University 2021 - 2024
GPA: 3.70 (First Class Honors equivalent range)

TECHNICAL SKILLS

- Languages:** JavaScript (ES6+), TypeScript, SQL
- Front-End:** React.js, Next.js, Angular, Redux, Tailwind CSS
- Back-End:** Node.js, NestJS
- Database:** PostgreSQL, MongoDB, MySQL
- DevOps & Cloud:** Docker, Kubernetes, AWS, Argo CD, Git
- Soft Skills:** Agile/Scrum, Problem Solving, Cross-functional Collaboration
