SUMMARY

Full Stack Developer with hands-on experience delivering production-grade web applications within enterprise environments. Proficient in React.js, Next.js, TypeScript, and modern front-end architectures, complemented by practical back-end development using Node.js, NestJS, PostgreSQL, and MongoDB. Experienced in integrating with microservices via REST and gRPC, optimizing system workflows, and building scalable, maintainable applications. Passionate about clean system design, cloud-native development (Docker, Kubernetes, AWS), and continuous technical growth.

WORK EXPERIENCE

Front-End Developer | Teleinfo Media Public Company Limited Jun 2025 - Present
(12 months)

- Developed and optimized front-end interfaces for a large-scale enterprise e-commerce ecosystem covering main-web, supplier-web, and admin portals using React.js and Next.js.
- Worked within a microservices-based architecture with nearly 20 backend services, integrating via REST and gRPC to ensure consistent and reliable cross-service communication.
- Leveraged Docker, Kubernetes, Argo CD, and AWS to support CI/CD workflows and maintain application performance and availability at scale.

Front-End Developer (Graduation Project) | TTT Brother Co., Ltd. Nov 2024 – Mar 2025
(5 months)

- Built an internal complaint management system using React.js, Express.js, and PostgreSQL, taking full ownership of the front-end architecture and UI/UX design.
- Delivered reusable components and optimized workflows to provide a seamless user experience across multiple departments.

Front-End Developer (Internship) | Exvention Co., Ltd. Jun 2024 – Sep 2024
(4 months)

- Developed the front-end for a Health Information Exchange (HIE) system using Next.js, integrated with a NestJS backend and PostgreSQL database.
- Optimized front-end performance and improved data handling workflows for better user experience in clinical environments.

Web Developer (Freelance) | E-Tax Project Apr 2024 – Jun 2024
(2 months)

- Developed responsive front-end web application using NextJS
- Delivered project 100% on-time meeting all client requirements.

Junior Developer (Collaborative Project) | Exvention Co., Ltd. Jul 2023 – Mar 2024
(9 months)

- Developed the front-end for an internal Helpdesk & ticket-management system using Angular, integrated with a Spring Boot backend.
- Worked with MySQL for data modeling, ticket workflows, and validation to ensure accurate and reliable issue tracking across the platform.

EDUCATION

Bachelor of Science in Software Engineering Burapha University 2021 - 2024
GPA: 3.70 (First Class Honors)

TECHNICAL SKILLS

- Languages:** JavaScript (ES6+), TypeScript, SQL
- Front-End:** React.js, Next.js, Angular, Redux, Tailwind CSS, Nuxt.js
- Back-End:** Node.js, NestJS, Golang
- Database:** PostgreSQL, MongoDB, MySQL
- DevOps & Cloud:** Docker, Kubernetes, AWS, Argo CD, Git
- Soft Skills:** Agile/Scrum, Problem Solving, Cross-functional Collaboration
