PROFILE

A highly motivated Software Engineering graduate with experience collaborating with companies as part of coursework since sophomore year and completing a cooperative education program in the final year. Proficient in front-end development, specializing in React.js, with a solid understanding of Software Development Life Cycle (SDLC) and Agile methodologies. Strong adaptability, teamwork skills, and the ability to thrive in dynamic environments. Passionate about building efficient and user-friendly applications.

WORK EXPERIENCE

DIGITAL SKILL GAP

2025

Freelance Project

- Developed a web-based skill assessment system for evaluating individual competencies through interactive tests.
- Built the frontend using Next.js and Tailwind CSS, ensuring a responsive and seamless user experience.

GRIEVANCE MANAGEMENT

2024

Course Project (Final Year) | TTT Brother Co., Ltd.

- Developed a web-based grievance management system to streamline complaint submission, tracking, and management.
- Designed and built the frontend using React and Bootstrap, ensuring a responsive and user-friendly experience.

HEALTH INFORMATION EXCHANGE

2024

Internship Project | Exvention Co., Ltd.

- Developed a Health Information Exchange (HIE) system to facilitate secure and efficient sharing of healthcare data.
- Built the frontend using Next.js and Tailwind CSS, ensuring a modern, responsive, and scalable user interface.

E-TAX

2024

Freelance Project

- Developed a web-based system for managing internal tax documents efficiently.
- Built the frontend using Next.js and Bootstrap, ensuring a responsive and user-friendly interface.

IT SUPPORTING AND HELPDESK MANAGEMENT SYSTEM

2023-2024

Course Project (Third Year) | Exvention Co., Ltd.

- Developed an internal IT support and helpdesk management system to streamline issue tracking and resolution.
- Built the frontend using Angular and Bootstrap, ensuring a responsive and efficient user experience.
